

Health and Harmony - Music Therapy | Relaxation Music

Health and Harmony

Tranquility

Price: \$11.99

Tranquil is defined as; free from disturbance; calm. Tranquility is the opposite of chaos and stress. For all eternity the sea endlessly caresses the sandy beach leaving whispering traces of foam and producing a tremendous sense of tranquility. Tension and stress ebb away as the smoothing sea combined with the most reflective and delicate music wash over you.

The music on this CD will create a perfect tranquil environment to meditate or alternately it can be used purely for relaxation and to promote good health.

Total playing time 56 minutes Digital stereo recording.
